Professional Beauty Care

DERMO-AESTHETIC AND
AROMATHERAPEUTIC
BEAUTY CARE

Jean-Daniel Mondin
Doctor of Pharmacy
Founder of Mary Cohr

The son of a French pioneer in cosmetic surgery, Jean-Daniel Mondin chose to use his pharmaceutical knowledge to develop cosmetic products with regenerating properties for more youthful-looking skin. These formulas, widely used by his father in cosmetic surgery, are now available to expert Beauty professionals: Beauty Therapists.

Mary Cohr Treatments are offered in Beauty Salons by Beauticians trained as Beauty Doctors.

The Beauty Therapists' level of professionalism and the effectiveness of the treatments meet the needs of even the most demanding skin types, for exceptional Beauty results.

A photograph of four glass flasks of different shapes and sizes. The flasks are arranged on a reflective surface. The central flask is tall and narrow, containing a sprig of lavender. To its left is a shorter, wider flask containing a sprig of mint. To its right is another tall, narrow flask containing a sprig of rosemary. A fourth, shorter flask is partially visible on the far left. The background is a soft, out-of-focus green.

Mary Cohr revolutionises Beauty Care with its unique Treatments!

At the forefront in skincare research, Mary Cohr is a unique brand that has made major strides in the science of Beauty, allowing Beauty Therapists to help women obtain exceptional results. Mary Cohr's innovations lie in its unique and exclusive Beauty Care Treatments that combine patented technologies with professional Aromatherapy.

Thanks to the Beauty Therapist's expert manual techniques, the powerful skincare properties of Essential Oils and natural active ingredients, women are able to see changes in their skin after only one hour.

These treatment methods using manual or machine techniques offer immediately visible results.

DERMO-AESTHETIC AND AROMATHERAPEUTIC BEAUTY CARE

"My Beauty Therapist takes the time to thoroughly analyse my skin for optimal Beauty!"

The Beauty Therapist takes the time to fully focus on you and better understand your skin, and expectations. After your beauty consultation, the Beauty Therapist draws up a personalised skincare programme based on your beauty goals, with the treatments, products and textures that best correspond to your skin. After each session, she will show you the effective results obtained in a mirror and evaluate the progress made.

Thanks to the expert training courses and programmes she has attended, the Beauty Therapist is a true skincare specialist. She has in-depth knowledge of Dermo-Aesthetic techniques, Aromatherapy and Essential Oils, allowing her to perform the most effective Beauty Treatments.

DERMO-AESTHETIC AND AROMATHERAPEUTIC BEAUTY CARE

CONTENTS • 05

High-tech Skincare formulas manufactured in its laboratory, in compliance with pharmaceutical standards

The Mary Cohr skincare products are developed using Natural Sciences and formulated at a laboratory on the cutting edge of Cosmetology. Mary Cohr products are manufactured in compliance with precise and rigorous pharmaceutical standards.

Indeed, Mary Cohr laboratories are part of the cosmetic manufacturing establishments to have obtained the highest quality certification standard, awarded by the International Bureau VERITAS certification body: ISO 22 716. This standard sets the good manufacturing practice (GMP) requirements needed to ensure high quality products: dust-free rooms, pure water that is continuously monitored, double weight control, and traceability of each product.

DERMO-AESTHETIC AND AROMATHERAPEUTIC BEAUTY CARE

The Mary Cohr laboratories also comply with the ISO 14001 standard, which upholds the principle of continuous improvement of environmental performance through controlling the impact of the company's activity.

Mary Cohr has made a two-fold commitment: it is dedicated to making continuous progress and endeavours to go above and beyond regulatory compliance, thanks to its pharmaceutical standards.

In order to assess the effectiveness of its products and treatment methods, Mary Cohr has recreated a Pilot Institute inside its Research and Development Centre.

The R&D laboratory permanently evaluates new active principles, stemming from cutting-edge scientific advances, in order to improve its formulas and the effectiveness of its skincare products.

The Beauty Therapists working at the Research Centre also help develop new salon treatments, improve treatment protocols and assess their effectiveness.

Key Treatment Points

Deep Cleansing action with the Thermoclean electrode

The Beauty Therapist chooses the gel that is best suited to the client's skin type, then moves the electrode over her entire face. The low heat emitted by the electrode eliminates excess sebum and toxins from the skin.

Beauty Massage

The massage releases tension from the face and drains skin tissue. Facial features appear rested and the complexion radiant.

Cleansing Treatment

CatioClean
30 minutes

“Beautifully clean & radiant skin”

Skin Cleansing Treatment

In only 30 minutes, CatioClean leaves the skin perfectly clear and beautifully radiant, with its patented skincare method.

This Treatment deeply cleanses the skin, thanks to the heat emitted from the Thermoclean electrode and relaxes the face with the beauty massage.

Optimally cleansed, the skin is clearer and the complexion more luminous after this pleasant 30 minute Treatment.

Skin is able to breathe freely again and is more receptive to the subsequently applied products.

Recommended once a month for all skin types and up to twice a month for oily skin.

SIGNS OF AGEING

BROWN SPOTS

DULL COMPLEXION

PIGMENTATION

Key Treatment Points

Skin Peeling

The Beauty Therapist exfoliates the entire face, erasing visible signs of ageing, restoring radiance, attenuating brown spots and brightening the complexion.

Regenerating Massage

The Derma Neuve Massage stimulates cell renewal to promote epidermal regeneration.

Soothing Mask

A peel-off mask with a cooling effect, Derma Beauté soothes the skin after the Treatment.

Radiance-Enhancing Treatment

Dermo Peeling

45 minutes

“My skin looks flawless!”

Skin Renewal Peeling Treatment

The Alternative to medical peels Mary Cohr has created **DERMO PEELING**, a new salon treatment that targets signs of ageing, skin tone and brown spots.

Genuine alternative to Aesthetic Medicine, this Treatment delivers visible results and radiant skin in only 45 minutes.

After the Beauty Consultation, your Beauty Therapist recommends the Treatment best suited to your level of skin sensitivity.

There are two different protocols for the **DERMO PEELING** Treatment:

DERMA PH: exfoliates skin deep-down to erase signs of ageing, attenuate dark spots and brighten the complexion.

DERMABRASION: eliminates dead cells on the skin's surface and adds a warm glow to the complexion. This version is better suited to sensitive skin.

The Beauty Therapist then performs a regenerating massage that relaxes features and stimulates cellular activity for a renewed skin effect.

The Treatment ends with the application of refreshing and soothing peel-off Derma Beauté mask, which is easily removed like a second layer of skin.

At the end of the Treatment, the skin looks “brand new”: the complexion is luminous and radiant, brown spots are attenuated and the face appears visibly younger-looking.

Key Treatment Points

Thermal Mask

High temperatures increase cell activity by diffusing energy into the skin. The “sauna effect” of the Heating Mask causes excessive secretion of the sebaceous and sweat glands. Free from impurities, the skin is able to breathe and is optimally prepared for the subsequently applied skincare.

Dynamic Ionisation

The Beauty Therapist selects the Serum Gel best suited to the client’s Beauty Goals. Thanks to the unique dynamic ionisation process, active ingredients penetrate deep down into the skin to spectacularly enhance and rejuvenate the face.

Massage using Essential Oils

Adapted to the client’s Beauty Goals, Essential Oils release their beneficial properties and beauty-enhancing energy into the skin.

Customised Treatments based on Beauty Goals

CatioVital Youth

● 50 - 60 minutes

“I choose a treatment in line
with my Beauty Goals”

Skin Rejuvenating Treatment based on Beauty Goals

CatioVital is a treatment method using a device that helps restore the cellular activity of young skin and target each beauty goal.

After the beauty consultation, the Beauty Therapist personalises the treatment based on Beauty Goals.

This treatment is available in six versions:

- Hydration
- Nutrition
- Purity
- Longevity (1st signs of ageing)
- Dark spots
- Sun Preparation / Repair

At the end of the Treatment, the skin appears visibly younger-looking and suppler. The complexion is luminous and radiantly beautiful.

Thanks to the unique ionisation process, the rapid absorption of active ingredients into the skin is optimised for exceptional effectiveness.

SALON FACE CARE TREATMENTS • 15

Key Treatment Points

Massage with Essential Oils

The Beauty Therapist selects one or more Essential Oils, depending on the Beauty Goals. She then applies them to the face, where they release their beneficial properties into the heart of the skin.

Beauty mask with 5 Plant extracts

The Beauty Therapist prepares the customised “Natural Beauty” mask with 5 Plant extracts, which she applies and leaves on for 10 minutes. At the end of the Treatment, the face glows with newly found radiance.

Customised Treatments based on Beauty Goals

Beauté Aromatique

50 minutes

“More beautiful skin”

Personalised Treatment with Essential Oils

The enchanting scents of Essence Oils welcome you into the treatment room and invite you on a marvellous journey of beauty and serenity for your face and spirit.

Everyone's skin is unique with different beauty needs. Your Beauty Therapist, a true “Beauty Doctor”, selects one or more Essence Oils, which release their beneficial properties deep into the skin, reviving its vital functions.

Beauté Aromatique is a unique Treatment in which the skincare properties of Essential Oils are combined with the precise and expert techniques performed by your Beauty Therapist.

At the end of the Treatment, your skin is perfectly relaxed and your face radiates with Beauty.

Key Treatment Points

Thermal Mask

High temperatures increase cell activity by diffusing energy into the skin. The “sauna effect” of the Heating Mask causes excessive secretion of the sebaceous and sweat glands. Free from impurities, the skin is able to breathe and is optimally prepared for the subsequently applied skincare.

Dynamic “Double Youth” Ionisation

Thanks to the unique Dynamic Ionisation process, the active ingredients from the “Double Youth” Serum Gel penetrate deep down into the skin to spectacularly enhance and rejuvenate the face.

Massage using Essential Oils

Adapted to the client’s Beauty Goals, Essential Oils release their beneficial properties and beauty-enhancing energy into the skin.

Anti-Ageing Treatments

CatioVital “Double Youth”

● 50 - 60 minutes

“Signs of time are erased!”

Anti-Ageing “Double Youth” Treatment

Starting at birth, the skin’s cellular activity slowly begins to diminish. Our cells gradually lose energy and multiply at a slower rate. The synthesis of elastic fibres slows down and signs of ageing appear.

CatioVital “Double Youth” is a treatment method using a device that helps restore the cellular energy of youthful skin.

This patented technology combined with the anti-ageing ingredients from the “Double Youth” Serum Gel help spectacularly rejuvenate the face. Formulated with Cellular Life Concentrate, Hyaluronic Acid and Hydrolysed DNA, the “Double Youth” Serum Gel formula penetrates deep down into the skin for unrivalled rejuvenating effectiveness.

Genuine Alternative to Aesthetic Medicine

CatioVital “Double Youth” immediately targets signs of skin ageing.

At the end of the treatment, signs of ageing are attenuated, and the skin appears visibly younger-looking, supple and firm.

SALON FACE CARE TREATMENTS • 19

Key Treatment Points

Dermabrasion Scrub

The Beauty Therapist exfoliates the entire face, neck and décolleté, eliminating dead cells and stimulating the production of young cells to give a more youthful appearance to the skin.

Anti-Ageing Serum

The Beauty Therapist applies serum, formulated with Cellular Life Concentrate and pure Vitamin C to activate cell regeneration and attenuate dark spots.

Invigorating Massage

Thanks to the 15 exclusive steps used for this massage, the invaluable active ingredients contained in the Hyaluronic Acid and DNA-enriched serum penetrate into the heart of the skin for a firming effect.

Youthful Radiance Mask

At the end of the Treatment, the Beauty Therapist applies the Youthful Radiance Mask with Pro-Collagen to add a healthy glow to the skin.

Anti-Ageing Treatments

Age Repair
50 minutes

“Takes years off my skin!”

Global anti-ageing Treatment

Age Repair combines technology with exclusive techniques for visible results on all signs of ageing.

At the end of the Treatment, skin is firmer, wrinkles and fine lines are smoothed away, dark spots are visibly reduced and the face is beautifully radiant.

Specially designed to erase visible signs of ageing, Age Repair targets all levels of the epidermis and dermis, thanks to an association of powerful rejuvenating active ingredients.

Unique components used in hospitals, highly concentrated pure Vitamin C and 56 Active Biological Ingredients effectively boost cell activity in order to revitalise the skin. The Hyaluronic Acid contained in the massage serum visibly fills in wrinkles and the Mask releases Pro-Collagen to firm skin.

At the end of the Treatment, the skin appears visibly more youthful-looking and signs of ageing are reduced.

Key Treatment Points

Anti-ageing Tissue Drainage

The Beauty Therapist uses a technique that releases accumulated tension caused by ageing and fatigue, improving microcirculation. The face appears rested and is prepared for the following Treatment phases.

Muscle Stimulation

This step consists of stimulating facial muscles to increase tone and volume in order to lift facial features.

"Lifting" Massage

The Beauty Therapist performs a massage using energising Essential Oils, following the muscle structure of the face. The skin appears regenerated and firmer, while the complexion glows with spectacular radiance.

Anti-Ageing Treatments

CatioVital Lifting

● 50 - 60 minutes

“I pamper my skin with
a spectacular lifting Treatment”

Instant Lifting Treatment with muscle stimulation

With age, we tend to use our facial muscles less frequently, causing the skin to lose its tone and contours to slacken.

To maintain a youthful body, physical exercise is highly recommended. Similarly, in order to maintain a youthful face, the muscles must be stimulated to boost their activity and lift facial features.

CatioVital Lifting is an exclusive Treatment method that lifts features by building muscle tone and rejuvenating the appearance of the face.

An immediate “lifting” effect after the 1st session

In the middle of the session, do the mirror test on one half of the face to see the difference!

Features are lifted and contours resculpted.

SALON FACE CARE TREATMENTS • 23

Key Treatment Points

Double Dermabrasion Scrub

The Beauty Therapist exfoliates the entire face, neck and décolleté using a dual action scrub (mechanical and enzymatic) to eliminate dead cells and leave the skin looking younger.

Firming Massage

The Beauty Therapist uses specific lifting and regenerating techniques on three areas (face, neck and décolleté) to restore elasticity and firmness to the skin.

Precise Lift

The Beauty Therapist moves Precise Lift wrinkle eraser over each wrinkle using a specific technique to even out the skin's surface. This physical procedure combined with the biological action of Hyaluronic Acid brings visible results by the end of the Treatment.

Firming and Lifting Masks for the Face and Décolleté

The Treatment ends with the application of a sheet mask for the face and a cream mask for the décolleté, which diffuse their firming active ingredients throughout the skin.

Anti-Ageing Treatments

Age Firming
50 minutes

“My skin looks visibly firmer”

Global Firming Treatment for the Face, Neck and Décolleté

The Age Firming Salon Treatment targets the epidermis and dermis to erase signs of ageing, thanks to the combination of powerful Firming ingredients.

After the exfoliating scrub and massage using exclusive firming techniques, the Beauty Therapist applies Precise Lift to the face and décolleté to visibly smooth away even the deepest wrinkles.

The secret lies in the applicator ball that releases a concentrated regenerating serum directly into each wrinkle for in-depth action.

The massage movements also smooth the sagging connective tissue, plumping up deep wrinkles.

Immediate Lifting and Firming action

At the end of the Treatment, two masks are applied that diffuse lifting, resculpting and firming ingredients into the skin for 10 minutes.

The face appears visibly firmer: contours are lifted, wrinkles are diminished, and the complexion is radiant.

Key Treatment Points

Eye contour massage

The Beauty Therapist performs a specially developed massage for this fragile area to firm skin, lift the eye contour and reduce puffiness and dark circles.

Muscle stimulation in the eye contour area

This Treatment method tones muscles around the eye contour for an unrivalled lifting and rejuvenating effect, thanks to the serum-gel packed with active ingredients that diminish wrinkles, puffiness and dark circles.

Eye contour mask

At the end of the Treatment, the Beauty Therapist applies the Eye Mask that helps smooth away wrinkles and rejuvenate the eye contour area, by erasing signs of fatigue and providing immediate lifting action.

Rejuvenating Eye Treatment

Eye Lifting
40 minutes

“My eyes appear younger-looking
and signs of fatigue are erased”

Global eye care
treatment to eliminate
wrinkles, puffiness and
dark circles.

Specially developed for the sensitive eye contour area, Eye Lifting targets the upper and lower eyelids, wrinkles and fine lines (crow's feet and frown lines) as well as dark circles and puffiness.

At the beginning of the Treatment, the Beauty Therapist performs a unique massage that drains and tones the eye contour area.

Next, using Muscle Stimulation, the highly concentrated active ingredients are diffused throughout the skin to promote cell renewal.

The Eye Mask is then applied, offering instant lifting action, thanks to its skin tensor effect.

At the end of the Treatment, wrinkles and fine lines look diminished, while dark circles and puffiness appear attenuated.

The eye area appears more luminous and youthful.

UNIVERSAL VITAL ESSENCE

“The energising beauty concentrate for all skin types”

PATENTED
PROCESS

Hydrogelation of Essential Oils to increase their penetration capacity

Thanks to the unique and patented texture of Universal Vital Essences, the Essential Oils deeply penetrate the skin, diffusing their beneficial properties into the heart of the cells, leaving no oily film or unsightly shine.

Normally, Essential Oils are diluted in a carrier oil. When applied, the carrier oil saturates the skin: lipophilic sebaceous glands absorb the carrier oil to the detriment of the Essential Oils. Pores become clogged and the skin is unable to effectively absorb the Essential Oils.

Thanks to the Essential Oil hydrogelation procedure, a carrier oil is not needed. The Essential Oils are directly absorbed and the gel texture leaves skin feeling perfectly smooth and soft.

PATENTED
COMBINATION

The magic formula that boosts the penetration and effectiveness of the active ingredients

The unique and patented combination of Essential Oils of Lavender, Sage and Rosemary activates the skin biological processes: **the active ingredients from the subsequently applied skincare better penetrate the skin and more effectively enhance its beauty!**

CLEANSING

1 Perfect Gel Cleanser

This astounding gel is applied to the entire face to perfectly cleanse and remove make-up from skin. When massaged in, it transforms into an oil and then an emulsion upon contact with water, restoring softness and comfort to the skin.

2 Fresh Cleansing Cream

A rinse-off cleanser with a refreshing and smooth texture that cleanses and removes make-up in a single step.

3 Soothing Cleansing Milk

This velvety smooth milk, with a delicate White Orchid fragrance, is rich in potent moisturising and soothing agents. It perfectly cleanses and eliminates impurities from the skin, leaving it silky soft and comfortable.

4 Soothing Toning Lotion

Perfectly gentle on the skin, this toning lotion completes the cleansing routine by eliminating all traces of milk. Skin is fresh and soft, and optimally prepared for the subsequently applied creams, boosting skincare benefits.

5 Micellar Cleansing Water

Ideal for busy women on the run, Soothing Micellar Cleansing Water with Cherry Blossom Extract eliminates impurities and make-up from face and eyes in one step. The no-rinse formula leaves the skin feeling soft and fresh.

■ **PRESCRIPTION**
Camellia Oil
Camellia Oil restores comfort, softness and suppleness to the skin.

■ **PRESCRIPTION**
White Orchid
This luxurious flower extract moisturises the skin, restoring exceptional softness.

■ **PRESCRIPTION**
Cherry Blossom
These flower extracts, with soothing and softening properties, have an anti-free radical effect.

EXFOLIATING

■ **PRESCRIPTION**
Pomegranate Seeds

Pomegranate Seeds eliminate dead skin cells, leaving the complexion radiantly beautiful.

■ **PRESCRIPTION**
White Lily Extract

White Lily Extract leaves skin soft and supple.

1 Radiance Gentle Scrub

All skin types

This face scrub provides natural exfoliation with Pomegranate seeds, adding a radiant glow to the skin. It gently eliminates dead cells that cause the complexion to appear dull, thanks to dual mechanical and enzymatic action. It is also highly enjoyable to use with its creamy texture and fruity fragrance.

2 Lily Essences Mild Exfoliator

Delicate skin

A naturally gentle and granule-free exfoliator that dissolves dead surface cells and impurities in just a few minutes. Applied to the skin with circular movements, its gel texture quickly turns into oil, leaving the complexion fresh and radiant.

LONGEVITY

1 Age SIGN^eS Corrector

This revolutionary product combines Hyaluronic acid-enriched serum with the physical action of dermo-balls for exceptional targeted results on wrinkles and fine lines.

2 Age SIGN^eS Repair

An intensive skin rejuvenating treatment, Age SIGN^eS Repair is a highly concentrated serum with 60 cellular ingredients that fight against signs of ageing. The skin regains its youthful appearance and firmness. Wrinkles and fine lines are diminished and signs of fatigue are erased.

3 Age SIGN^eS Reverse

This revolutionary skincare cream visibly erases signs of ageing, while boosting the skin's immunity to fight the effects of ageing.

■ PRESCRIPTION Hyaluronic Acid

A major constituent of the dermis, this exceptional biological agent settles into the skin, reducing the appearance of wrinkles and fine lines. Hyaluronic Acid also helps secure moisture in the skin for improved continuous hydration.

■ PRESCRIPTION Age Immune Cellular Complex

Protects Langerhans cells, which play an important role in the skin's immune response and youthful appearance.

LONGEVITY

■ PRESCRIPTION

Cellular Life Concentrate

A cell medium used in hospitals to recreate new skin from living cells. Composed of elements essential to cellular life (essential amino acids, vitamins, biological agents and mineral salts), it provides unique action on cellular growth, multiplication and longevity for a visible skin rejuvenating effect.

■ PRESCRIPTION

Multi-Cellular Concentrate

Stimulates cell regeneration and lowers progerin levels, responsible for skin ageing.

1 New Youth Serum

The “elixir of youth” for your face! This concentrated serum releases its rejuvenating active ingredients into skin to reactivate the cells’ vital functions. The face appears younger-looking, smoother and firmer.

2 New Youth

New Youth cream stimulates the cells’ vital functions and compensates for the effects of hormone deficiencies, leaving skin visibly more youthful, firmer and radiantly healthy. In addition to its exceptional anti-ageing effectiveness, it improves cutaneous firmness.

Day after day, wrinkles diminish, tone is restored and the face appears more youthful.

3 Enriched New Youth

Offering dual action on skin cells and tissue, this enriched cellular renewal cream restores comfort and softness to the skin, thanks to essential fatty acids (Omega 6). The skin is firmer and smoother, and wrinkles gradually fade.

4 Double Youth Multi-Cellular

Double Youth Multi-Cellular cream targets the cells in all skin layers for global rejuvenating action. Offering protection and boosting radiance, this cream optimises cell regeneration and gives the skin a smoother appearance. Day after day, the skin is firmer, the face appears visibly younger-looking and signs of ageing are diminished.

5 New Youth Mask

In only 10 minutes, the face glows with radiance and new youthfulness. Rich in Cellular Life Concentrate, it reduces wrinkles, smoothes skin and erases signs of fatigue.

FACE CARE PRODUCTS • 35

FIRMNESS

1 Ice Lift Mask

In only 10 minutes, Ice Lift restores a radiant glow to the skin, thanks to its dual action: an icy cold effect, due to the mask's gel texture that restores density to skin and a lifting effect that firms facial features and spectacularly smoothes away wrinkles.

2 Firming Lifting Mask

In only 10 minutes, the face appears visibly firmer and more radiant. The Firming Lifting Mask helps fight against sagging skin, formation of wrinkles and provides an immediate tightening effect.

3 Firming Lifting Serum

This Serum leaves the face visibly younger-looking, thanks to its instant firming and lifting effect. The skin is smoother and firmer.

4 Expert Face Sculptor

This serum cream slims down a plump face and resculpts facial contours. Day after day, facial features look thinner and the face appears resculpted and visibly lifted.

■ PRESCRIPTION

Inductine Lift

Stimulates the production of elastin fibres, restoring tone and elasticity to skin.

■ PRESCRIPTION

Slimming Contouring Complex

Promotes the elimination of water retention and activates the fat breakdown process in specific areas (cheeks, chin, neck...).

FIRMNESS

■ **PRESCRIPTION**
Dynalift

Smooths wrinkles, thanks to immediate firming action.

■ **PRESCRIPTION**
Dermostimulines

Enriched with exceptional regenerating properties, Dermostimulines stimulate cell functions to help renew the epidermis. The dormant structures of the skin are "awakened", improving firmness and tone. The skin appears smoother and younger-looking.

■ **PRESCRIPTION**
Sea buckthorn extract

Helps improve the skin's architecture by stimulating the synthesis of key proteins that create and reinforce the dermal structure for firm, redensified and restructured skin.

1 Wrinkle Smoothing Cream

The face regains its youthful appearance, thanks to this skincare cream that visibly attenuates wrinkles and fine lines, thanks to its immediate tensor effect.

2 Vital Lift Cream

The ideal daily skincare product that visibly firms skin, thanks to its revitalizing and regenerating active ingredients. The skin appears younger-looking.

3 Nourishing Firming Cream

This cream reactivates the skin's vital nourishing functions. Its rich texture restores suppleness and comfort to the skin, leaving the face visibly firmer and younger-looking.

4 Age Firming

Age Firming is a skincare cream with dual firming and rejuvenating action to firm, restore density and resculpt the face. Wrinkles appear smoothed away and the face lifted.

MOISTURISATION

1 Moisturising Light Cream

A skincare cream that diffuses moisturising plant ingredients into the skin to retain water and boost radiance.

2 Overnight Beauty

My skin looks more beautiful upon waking, thanks to this gel-cream that eliminates signs of fatigue and moisturises the skin during the night. In the morning, the face appears rested, the complexion looks fresh and signs of fatigue are erased.

3 I.H.C

Incredible Hydrating Cream

This revolutionary skincare cream recreates the level of moisture found in young skin by targeting the skin's basic hydrating mechanisms (water storage, diffusion and retention). It leaves the skin incredibly hydrated and younger-looking.

■ PRESCRIPTION

Chrononight

Chrononight is a Biotechnological agent that stimulates cellular activity and regeneration at night for fresh and luminous skin during the day.

■ PRESCRIPTION

Aqua Cellular Complex

Retains and promotes the diffusion of moisture throughout the different cutaneous layers, while increasing the skin's ability to store water in cells.

MOISTURISATION

■ **PRESCRIPTION**
Aquasmoses Concentrate
Moisturises the cells
through "osmosis" by
merging with cellular
membranes.

1 Hydrosmose Serum

Hydrosmose Serum revitalises dehydrated skin by replenishing cells with moisture through "osmosis". Skin is luminous and supple, and dehydration lines are smoothed away.

2 Hydrosmose

This cream continuously replenishes moisture to the cells through "osmosis". Aquasmoses hold water in the skin for long-lasting moisturisation, plumping up dehydration lines. Comfort and softness are restored to the skin all day long.

3 Hydrosmose Mask

The exceptional properties of Aquasmoses immerse cells in a genuine moisture bath. In only 10 minutes, the skin is soft, dehydration lines are visibly erased and the complexion radiant.

4 Hydrosmose Mist

This mist, with ultra-fine droplets, penetrates the heart of the cells to moisturise skin. May be used morning and evening underneath your regular cream or throughout the day, even to made-up skin, to deliver a permanent source of moisturisation.

NOURISHMENT

1 Instant Soothing Cream

Used daily, this cream instantly soothes even the driest skin, nourishing it all day long. It can be applied to all types of cutaneous irritation (sun, cold, flaking skin, etc.) to soothe and help skin heal more rapidly.

2 NutriZen

Rich in nourishing and protective active ingredients (Omega 3, 6, 9), NutriZen leaves the skin feeling so comfortable and supple that the face appears fully relaxed and stress-free.

3 NutriZen Mask

In only 10 minutes, comfort and radiance are restored to the skin and the face appears perfectly “stress-free”. NutriZen Mask is formulated with Essential Oils that restore the energy skin needs to assimilate nutrients, and Lotus Extract to diminish sensations of discomfort.

SOFTNESS

1 MultiSensitive Serum

This deep-acting serum instantly relieves delicate and reactive skin. It works at the heart of the cells to soothe skin, by regulating symptoms of sensitivity and discomfort.

2 MultiSensitive

This skincare cream soothes and restores comfort to delicate and sensitive skin. Day after day, the skin feels softer, becomes less reactive and redness diminishes.

3 Pure Defense

This skincare cream works like a “shield” to protect skin from external stress factors (UV light, pollution, dehydration, etc...). The skin feels comfortable, and glows with renewed beauty and radiance.

4 Instant Anti-Redness Cream

This cream immediately neutralises redness, for a perfectly natural complexion. The high-tech green formula contains encapsulated pigments that release a golden hue upon application.

5 MultiSensitive Mask

Gentle calming care for reactive skin, this mask instantly relieves sensations of hypersensitivity (redness, overheating) by diffusing its powerful soothing ingredients into skin. In only 10 minutes, comfort is restored and the face regains its natural skin tone.

PURITY

1 Cleansing Purifying Foam

Ideal for oily skin, this refreshing and comfortable soap-free foam offers deep cleansing and purifying action, leaving skin clean and free of microbial impurities.

2 Shine Control Toning Lotion

This refreshing lotion, with intense regulating, anti-microbial and anti-shine action, is ideal for completing the cleansing routine. It leaves skin pure and shine-free, with visibly tightened pores.

■ **PRESCRIPTION**
Sebostop
Regulates excess
sebum and
hyperkeratinisation.

PURITY

■ PRESCRIPTION Matipowders

Instantly neutralise
shine for a perfect
long-lasting matt
finish.

■ PRESCRIPTION Purity Complex

A concentration of active ingredients
chosen for their powerful purifying
and anti-seborrheic action, Purity
Complex treats all oily skin problems
due to excess sebum (shine, dilated
pores...).

1 Purifying Corrective Serum

This serum helps control microbial flora and regulate sebum production to prevent shine and tighten dilated pores. The skin appears fresh, clear, and perfectly matte.

2 Matifying Hydrating Fluid

The 1st treatment designed for combination to oily skin that offers effective dual moisturising and anti-shine skincare action.

3 Matifying Clarifying Cream

A purifying cream that helps eliminate shine from oily skin and treat pores. Skin is protected all day long and the complexion is shine-free.

4 Cover Touch

Emergency care that purifies the skin and dries blemishes, thanks to its tinted cream texture. Apply directly to blemishes, when needed.

5 Matifying Purifying Mask

Similar to a sponge, this mask immediately absorbs sebum, diminishes shine, eliminates impurities and purifies the skin. Thanks to its powerful active ingredient Sebostop®, it helps restore balance to the skin for long-term results.

NATURAL BEAUTY

1 Ecobiology

This cleansing foam gently cleanses the skin, while preserving its natural defences. Enriched with a water-softening agent, this soap-free cleanser leaves the skin feeling fresh and comfortable.

2 Pure Environment

Formulated without artificial colours and with natural active ingredients, this unique treatment helps restore oxygen to the cells, moisturise and protect the skin. Skin is revitalised, beautiful and hydrated.

■ PRESCRIPTION Pro-Oxygène®

A natural active ingredient that boosts cell oxygenation and generates cellular energy for ultimate vitality, visible on the skin.

RADIANCE

■ PRESCRIPTION Skin Renewal Complex

Eliminates dead cells to promote the formation of new cells. Evens out the complexion and refines the skin's texture.

■ PRESCRIPTION Orange Extract

A natural source of concentrated Vitamin C, it stimulates the skin's vital functions to deliver strength and energy.

1 "New Cell" Serum

This skin renewal serum eliminates dead cells that dull the complexion and promotes the appearance of new cells for flawless, luminous and radiantly beautiful skin.

2 Orange Energy Cream

A Vitamin-enriched cream, like morning "orange juice" for your skin! The complexion looks fresh and luminous, with a healthy glow.

3 Ingenious Cream

In one step, the skin is moisturised, protected from UV rays and radiantly beautiful. Offering multiple benefits, this cream boasts an "ingenious" formula that changes colour upon contact with the skin for an instantly even-toned and luminous complexion.

4 Fresh Complexion "Natural Beige" and "Golden Beige"

These smooth, lightly tinted creams evenly and instantly enhance the complexion. In one step, the face radiates with a "natural glow" that lasts all day long, with the added protection and hydration of a day cream. Available in 2 shades for different skin tones.

BRIGHTENING

1 Brightening Cleansing Oil

This remarkable oil is applied to the entire face to deeply cleanse and remove make-up from the skin, where it releases its active brightening ingredients. It transforms into an emulsion upon contact with water, easily rinses off and leaves the skin perfectly clean and clear.

2 Brightening Cleansing Gel Milk

This Gel Milk perfectly removes make-up and cleanses the skin. It is enriched in Melanoxyl and stabilised Vitamin C for instant cleansing and skin brightening action.

3 Brightening Toning Lotion

Rich in Melanoxyl, this lotion is applied after the Gel Milk or Cleansing Oil. The skin is better prepared for the subsequent application of brightening products, boosting their effectiveness.

■ PRESCRIPTION

Melanoxyl

Targets melanocyte activity, responsible for the synthesis of melanin, to brighten the skin by:

1. Reducing the production of melanin induced by UV light.
2. Reducing the initial amount of melanin.

BRIGHTENING

■ PRESCRIPTION

Vitamin C

Visibly brightens the complexion. Used pure or in the form of an instant preparation, it delivers immediate and spectacular results.

1 Intense Brightening Serum

This intensive treatment helps boost and speed up visible skin brightening results. After 14 days, the serum visibly attenuates dark spots and refines skin texture for a perfect complexion.

2 Day Cream ☀

After 30 days, the complexion is more luminous and dark spots are diminished. This cream contains powerful brightening ingredients, as well as anti-UV filters to protect the skin throughout the day.

3 Night Cream ☾

After 30 days, the complexion is visibly brighter and even-toned, and dark spots are diminished. This night cream works while you sleep, when cellular activity is at its peak and the skin is not subject to the harmful effects of UV rays.

4 Instant Brightening Mask

After 10 minutes, your complexion is more radiant and luminous. The powerful and highly concentrated active ingredients provide an instant light-enhancing effect. Ideal for beginning the SWHITE skin brightening programme.

EYE CARE

1 Eye Clean

A make-up remover that gently eliminates hard-to-remove mascara and eyeshadow thanks to its bi-phase texture. It also soothes the eye contour and erases signs of fatigue, without leaving an oily film over the skin.

2 Eye Fresh

Rich in tissue-draining plants and Green Seaweed extract, this effective gel is ideal for erasing signs of fatigue and visibly minimising puffiness and dark circles. Its refreshing texture boosts effectiveness by relaxing the eye contour and leaving it radiantly beautiful.

3 Eye Repair

In only 8 minutes, the eye contour area is visibly younger-looking and signs of fatigue are erased. With an exclusive and patented shape, Eye Repair mask releases its powerful rejuvenating, energising and draining ingredients into skin to smooth away wrinkles and fine lines, diminish puffiness and dark circles and add a youthful appearance to the eye contour area.

■ PRESCRIPTION

Draining plant extracts and caffeine

Dual "anti-fat" and "anti-water retention" action that visibly diminishes puffiness and dark circles.

EYE CARE

1

2

3

■ PRESCRIPTION

Cellular Life Concentrate

Stimulates cellular growth and regeneration for visibly more youthful-looking, well-rested eyes.

■ PRESCRIPTION

Multi-Cellular Concentrate

Stimulates cell regeneration and lowers progerin levels, responsible for skin ageing.

1 Eye Contour Acti-Serum

An intensive treatment that smoothes away wrinkles and fine lines around the eye contour. It strengthens the structure of the extremely fine layer of skin around the eyes, restoring a more youthful appearance.

2 New Youth "Eye Contour"

Ideal for treating the fine skin around the eye contour and crow's feet area, New Youth "Eye Contour" care boosts elasticity and erases signs of ageing. Day after day, the eyes appear more luminous and youthful.

3 Double Youth "Eye Contour"

This miraculous eye rejuvenating care diffuses a high concentration of anti-ageing, regenerating and firming active ingredients into the skin to smooth the epidermis, diminish wrinkles and "lift" the eyelids. Day after day, the eye contour appears younger-looking and recovers its youthful glow.

LIP & NECK CARE

① Lip Comfort

Enriched in Shea Oil, this beauty balm nourishes, repairs and protects lips, leaving them soft and beautiful all day long.

② New Youth “Lip Care”

With a cell regenerating and plumping effect, rejuvenating New Youth Lip Care moisturises and smoothes away the fine lines around the mouth, while adding “volume” to plump up lips.

③ New Youth “Neck and Décolleté Care”

The ideal “Lifting-Firming” treatment for the neck and décolleté! This cream gel sculpts the neck contour, minimises dark spots on the décolleté and firms skin.

■ **PRESCRIPTION**
Hyaluronic Acid Spherical Fillers
Enriched in Hyaluronic Acid, they add volume and a plump appearance to the lips.

MEN CARE

■ **PRESCRIPTION**
Lime Extract
*Purifies the skin by
 regulating excess sebum
 production.*

■ **PRESCRIPTION**
Aloe Vera
*Moisturises and softens
 skin.*

1 Fresh Cleansing Gel

Formulated with lime extract, this gel gently cleanses and purifies the skin, leaving it clear, fresh and discretely scented.

2 Soothing After-Shave Care

This gel-cream soothes irritation caused by shaving and moisturises the skin. It eliminates shine for a healthy matte complexion.

3 New Youth

This skincare cream, formulated with Cellular Life Concentrate, erases signs of ageing and fatigue. Day after day, wrinkles fade, the skin looks firmer and the face appears visibly younger-looking.

techni[®]SPA Method

Key Treatment Points

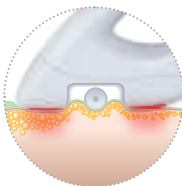

Double Dermo-Sculpting

This exclusive cutting-edge technique offers increasingly rapid and visible results. Acting as a vacuum on the skin, the massage head is used to target and break down fatty deposits, reducing their appearance.

Double Ionisation

During the Double Dermo-Sculpting phase, Double Ionisation ensures the deep-down absorption of active slimming ingredients into the skin, which will improve and prolong the resculpting effects of the treatment.

Thermal effect

Heat diffusion helps dissolve fat on the skin's surface and activate cutaneous microcirculation, facilitating tissue drainage and smoothing away cellulite, while ensuring optimal comfort for the client.

56 • SALON BODY CARE TREATMENTS

Key Treatment Points

SpA Aromatique® Body Care Method

Expert Slimming Massage

Your Beauty Therapist's expert manual techniques combined with the anti-cellulite properties of Slimming Essence Oils visibly smooth and diminish the appearance of "orange-peel" skin, while slimming down the figure.

Slimming Elastomasque

With a high concentration of active contouring and draining ingredients, Slimming Elastomasque attenuates persistent cellulite and effectively drains skin tissue. An anti-fat effect combined with anti-water retention action to resculpt the figure.

"My legs feel lighter thanks to my

Draining Double Dermo-Sculpting

Treatment method using the techniSPA® machine that restores a feeling of comfort and lightness to the legs immediately after the session. Legs look increasingly beautiful, refined and slimmer.

30 minutes

RESULTS

- 1.2 cm loss around the knee⁽¹⁾
- 100% of women felt a draining effect, a sensation of lightness and freshness⁽¹⁾

(1) Average results noted on 5 subjects, after 6 treatments.

Soothing Leg Treatments

and look more beautiful,
Beauty Therapist"

Energizing Drainage and Light Legs Wrap

Manual treatment method with a "compression" wrap to alleviate, refresh and tone the legs.

This treatment slims down the legs, making them feel lighter and more comfortable.

The exclusive techniques used by the Beauty Therapist are combined with Ice Legs lotion to drain and decongest skin tissue. The Light Legs Wrap provides an intense and refreshing effect for a sensation of wellness at the end of the treatment.

● 30 minutes

Key Treatment Points

De-stressing massage with Essential Oils

This treatment fully relaxes the body, thanks to applied pressure and enveloping techniques used by the Beauty Therapist.

It releases tension and leaves the body feeling relaxed. The skin feels soft and silky smooth.

Relaxing Massage with Shea Butter

Thanks to the gentle techniques used by the Beauty Therapist, this massage offers clients a moment of absolute well-being and serenity, while leaving the skin silky soft and nourished.

Retouched photo.

Well-Being Treatments

“I feel a complete sense of wellness
in my Beauty Salon”

De-Stressing Treatment

An invigorating manual treatment inspired by the Swedish, Japanese and Maori Massage methods to release deep-down daily tension from the body and mind. The skin feels soft and silky smooth. Two different versions:

● 30 minutes

De-Stressing Massage with Essential oils

● 60 minutes

Global De-Stressing Massage with Essential Oils

Relaxing Treatment

A manual relaxing treatment, inspired by the California Massage method for a moment of absolute relaxation and well-being. The skin feels soft and nourished.

Before the massage, the Beauty Therapist applies a creamy wrap to relax the body as well as soothe and nourish the skin.

● 60 minutes

Key Treatment Points

Precious Scrub

Rich in Brown Sugar and Apricot Kernel Powder, this exfoliating scrub smoothes the epidermis by eliminating dead surface cells, while nourishing skin with Mango Butter.

Self-Tanning Foam

This tinted foam gives the skin an immediate "sun-kissed" glow, while self-tanning ingredients deliver a long-lasting golden glow. Containing the perfect dose of skin colouring agents, the shade is well-suited to all skin tones.

Retouched photo.

Beauty-Enhancing Body Care Treatments

“My skin is soft and tanned”

Exfoliating Treatment

A manual skincare treatment that gently eliminates dead skin cells from the entire body with Precious Scrub.

After the 30-minute treatment, the skin feels smooth and velvety soft, and is ready for the subsequently applied skincare.

This treatment offers a moment of absolute pleasure!

 30 minutes

Self-Tanning Treatment

A manual skincare treatment that provides a natural and luminous golden tan without exposure to UV rays.

After the 40-minute treatment, exfoliation with Precious Scrub and application of Self-Tanning Foam, the body looks just as tanned as after spending a weekend in the sun.

An easy and rapid self-tanning body care treatment that offers even, streak-free results!

 40 minutes

Key Treatment Points

Foot pH Peeling

This peeling gel removes dead skin and softens rough patches, leaving the feet looking “brand new”. Using an exclusive spatula, the Beauty Therapist then eliminates all residue and smoothes away imperfections.

New Youth Foot Care Cream

Rich in Cellular Life Concentrate, this cream helps intensely regenerate the fragile skin on the feet. It envelops the feet in softness and a protective veil to comfort and care for the newly round baby soft feet.

Foot Care

Pedi Peeling

30 minutes

"Baby soft skin for my feet"

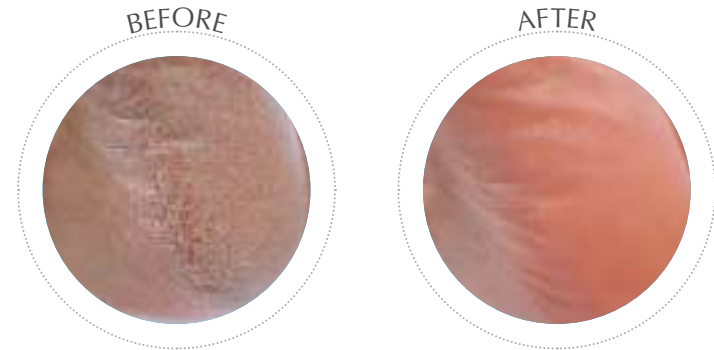

Foot renewal and peeling treatment

Manual treatment method for comfortable and younger-looking feet.

The Beauty Therapist uses a skin peel on the bottom of the feet, an area that is often rough and thick, and subject to calluses and imperfections, for a "new skin" effect in only 15 minutes.

She then applies New Youth Foot Cream to both the top and bottom of the feet for an immediate rejuvenating effect.

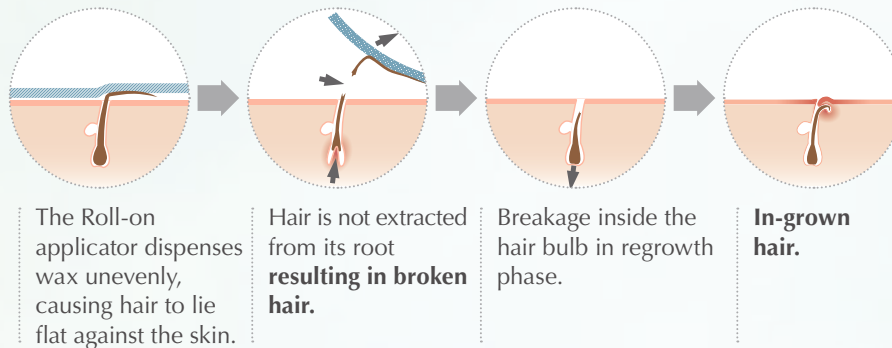

At the end of the Treatment, the skin on the feet looks "brand new". It feels smooth, soft, and intensely moisturised.

SHOWER CARE

1 Easy Gentle Scrub

This “two in one” body scrub offers all the advantages of a shower gel and an exfoliating scrub. Easy to apply and rinse off, it gently cleanses the skin, while eliminating dead surface cells, thanks to Bamboo micro-grains. The skin feels perfectly soft and silky, and the effectiveness of the subsequently applied products is improved.

2 Shower Body Cream

Scented with a delicate fragrance, this rich shower cream offers a moment of absolute pleasure in the shower. It gently cleanses and restores comfort to skin, leaving it soft and velvety smooth.

3 Essences Shower Gel

Enjoy the energising and revitalizing citrus scents of Essential Oils while you shower! The smooth foam gently cleanses and purifies your skin, diffusing the vital energy of Essential Oils.

4 Exquisite Shower Gel

Enjoy a moment of absolute indulgence in the shower with this comforting shower gel and its captivating fragrance! It gently cleanses the body, neutralises the drying effects of hard water and soothes tight-feeling skin, leaving the body soft and comfortable.

WELLNESS

■ PRESCRIPTION

Camelina Oil

Camelina, a plant with yellow blossoms, is used to produce oil highly rich in Omega 3 and 6. These essential fatty acids help protect and nourish the skin, as well as inhibit cutaneous dehydration.

1 Plaisir de Peau

This body water is bursting with fresh Rose, Blackcurrant and Lemon notes that infuse the senses with pleasure. It leaves skin soft and delicately scented all day long.

2 Energising Essences

When applied to the body, this refreshing energising water visibly restores vitality and tone to the skin. Energising Essences revitalises your skin and its Essential Oils provide a complete beauty care programme.

3 Exquisite Oil

This exquisite Oil gently regenerates the skin, restoring softness, suppleness and comfort. It may also be applied to the hair to nourish and enhance shine.

4 Soothing Refreshing Gel

No more heavy, tired legs, just freshness and lightness! This mentholated gel instantly wraps your legs in a sensation of intense, long-lasting freshness. The feeling of heaviness and circulation problems disappear. Your legs feel toned and light again.

SLIMMING & FIRMNESS

1 "Orange Peel" Scrub

This slimming exfoliating gel erases the dimpled "orange-peel" appearance, while refreshing and toning skin. Dimpled cellulite is visibly attenuated and skin is smoother and softer to the touch.

The first step in your slimming routine, this scrub opens skin pores, allowing active contouring ingredients to more effectively penetrate.

2 Vital Essences Body Care

This magical gel derives its power from Essential Oils that diffuse natural energy into the skin to stimulate its vital functions.

3 Intradermal Cellulite

This concentrated serum targets deep-down persistent cellulite. It directly penetrates the skin and fat cells, visibly reducing its dimpled appearance and smoothing the epidermal surface.

4 Pure Slimmer "Quick Action"

This gel-cream breaks down fatty deposits that cause the formation of dimpled, orange-peel skin. It also helps prevent cellulite from forming again by limiting fat storage. Day after day, the figure appears increasingly slimmer as if resculpted.

■ PRESCRIPTION

Caffeine

Slims down contours and diminishes cellulite by stimulating the breakdown of fat.

■ PRESCRIPTION

Adipain

An enzyme extracted from Pineapple that dissolves the membrane surrounding fat cells, optimising the penetration and action of the fat-burning ingredients, for rapid slimming results.

SLIMMING & FIRMNESS

■ **PRESCRIPTION**
Hydroxyproline

Stimulates the synthesis of collagen and elastin fibres to reinforce and firm the skin's support tissue.

■ **PRESCRIPTION**
Crelastin and Crelastin B

Powerful firming ingredients that improve skin elasticity to restore suppleness and firmness, while helping attenuate stretch marks and diminish their appearance.

1 Body Age Firming

An invisible beauty "girdle", this reshaping and toning gel-cream firms saggy skin, due to age or pregnancy (bust, arms, hips, thighs, stomach ...). The skin looks visibly firmer, glowing with a beautiful youthful appearance.

2 Body Firming Cream

This rich toning and resculpting cream, silky soft to the touch, firms slackened skin due to ageing or pregnancy (bust, arms, hips, thighs, abdomen, etc.). The skin is visibly firmer, toned and the body resculpted.

3 Stretch Mark Cream

Like invisible support underwear, this cream consolidates and strengthens elastic tissue, to diminish the appearance of stretch marks and limit their formation.

LONGEVITY & TONICITY

1 Enriched New Youth Body Care

This rich and highly absorbent body cream restores the skin's firmness and softness, which diminish due to passing time and fatigue. It effectively treats wrinkles and all problem areas that tend to slacken (arms, thighs, abdomen...). Comfort and softness are restored to the skin, leaving it more youthful-looking, and the figure beautifully resculpted.

2 New Youth Hand Cream

This highly regenerating cream actively protects the hands against environmental stress factors (cold, wind...). Brown spots are attenuated. Day after day, hands appear smoother, brighter, and younger-looking. A remarkably soft and smooth texture with a scent of freshly cut flowers. The ultimate cream for restoring comfort and a youthful appearance to hands!

3 New Youth Foot Care

This regenerating cream repairs the fragile skin on the feet. Day after day, the feet feel softer, suppler and more comfortable, recovering their youthful and beautiful appearance.

4 Mirific Bust

Genuine alternative to aesthetic medicine, this cream restores volume and shape to the breasts, which appear transformed. For optimal effectiveness, rinse the chest area with hot water for approximately one minute prior to application in order to increase cellular activity and stimulate the production of elastic fibres.

■ PRESCRIPTION

Cellular Life Concentrate

For the formulation of its New Youth products, Mary Cohr turned to the cell medium used in hospitals to recreate new skin from living cells. Composed of elements essential to cellular life (essential amino acids, vitamins, biological agents and mineral salts), it provides unique action on cellular growth, multiplication for a visible skin rejuvenating effect.

MOISTURISATION & NOURISHMENT

1 Ingenious Cream Legs and Arms

This cream instantly enhances the skin and conceals imperfections. The skin appears lightly tanned and moisturised.

2 Intense Skin Softening Milk

This rich and highly refreshing milk envelops your body in lasting softness and comfort all day long.

3 Hydromose Body Care

This rich-textured cream softens and beautifully enhances the skin, leaving it feeling comfortable. It offers intense day-long moisturisation, particularly in the driest areas where it is most needed (legs, arms, and elbows).

4 NutriZen Body Care

This balm nourishes and preserves the skin by infusing it with nutritive and protective active ingredients. Stress is eliminated leaving skin feeling soft, supple and comfortable.

Soft and soothed skin

RESULTS

- Slows down hair regrowth.
- Clearly decreases the number of hair.
- Leaves hair finer.
- The skin remains smooth and hair-free for longer.

Retouched photo.

LONG-LASTING DEPILATION

■ PRESCRIPTION

Bulbaine

Plant complex that:

- breaks down the structure of keratin, which causes hair growth.
- locally inhibits the enzyme involved in hair growth to slow down regrowth and make hair less visible.

1 Dépil Stop Serum

face and body

To be applied to the depilated areas for 2 days after hair removal to slow down hair regrowth and soothe the skin.

2 Dépil Stop Cream

face and body

To be applied regularly between hair removal sessions. This cream targets emerging hair, breaking down its structure, lightening the hair, moisturising the skin, helping prevent ingrown hair and maintaining longer-lasting hair-free skin.

3 Dépil Stop Deodorant Spray

This refreshing spray is specially formulated to slow down hair regrowth and leave skin clear and hair-free for longer. To be applied daily to neutralise unpleasant odours, regulate perspiration and extend the time period between two hair removal sessions.

4 Dépil Stop Deodorant Cream

This high tolerance formula slows down hair growth and regrowth. Enriched in deodorising agents that help reduce perspiration and eliminate unpleasant odours.

The skin is clear and hair-free for longer, extending the time period between two hair removal sessions.
