WHAT IS TERIYAKI MADNESS?

IT'S FAST CASUAL. AND FRESH.

Teriyaki Madness provides the ultimate Teriyaki Shop experience, serving oversized portions of marinated grilled chicken, beef or tofu and rice or fresh cut veggies wok-tossed in our house-made sauces to create authentic Asian bowls heaping with fresh, healthy ingredients. We combine the traditional values of Seattle's beloved teriyaki houses to bring a new option to cities and small towns across the country.

We believe both quality and quantity matter. TMAD combines only the highest quality ingredients in our dishes (fresh all-natural chicken, fresh cut veggies, homemade, gluten free sauces) with every order cooked to order in five to eight minutes. Our customers leave full and satisfied (and often with leftovers!).

We take great pride in our menu items. Our dishes are customizable, boasting heaping helpings of meat perfectly marinated in our house-made sauces, fresh vegetables atop a massive serving of sushi-grade rice (white, brown or fried) or yakisoba noodles.

There's a reason Teriyaki Shops are found everywhere in Seattle; teriyaki is delicious, healthy and fast. The founder's love affair with teriyaki started in Seattle as students, then was brought home to Las Vegas in 2003 to see if it would work in a totally different market. It wasn't long before they had built a community of raving fans and started franchising. In 2012, after proving the business model, with 3 franchisees and 7 open shops, Teriyaki Madness began growing its community of Teriyaki Shop owners and food fanatics nationwide. With success across the country, we took TMAD to the next level. TMAD is spreading fast and now operates in 27+ states and 100+ open shops.

WHAT MAKES US DIFFERENT?

OUR FOOD We believe in food that feeds our souls. Fresh meals, made when and how someone orders, without hesitation.

OUR CULTURE We believe in building a culture made of people and NOT bottom lines. We take risks and dream big. We work together, we succeed together, we laugh together. It's a team from top to bottom.

OUR SUPPORT We believe if we take you on as a restaurant "newbie" we have the obligation to hold your hand all the way! On the flip side, if we take you in as an established and experienced restaurant owner, we have the obligation to support you in your growth and needs as a multi-unit owner.

WHY TERIYAKI MADNESS?

OUR FOOD

SUSHI-GRADE CALROSE RICE is grown in California, and makes the best sticky rice around.

TERIYAKI in Japanese is comprised of two words: "Tare" which refers to the glaze of soy sauce, mirin and other spices, and "Yaki" which refers to the specific method of grilling or broiling. However you spell it, it's delicious.

SEVEN SIGNATURE SAUCES are made in-house, and are so popular, many consumers ask how to bring the madness home.

YAKISOBA has been a popular dish in Japan for over 100 years, first being served in food stalls in alleys and markets. Our yakisoba noodles are the best this side of the Pacific!

VEGGIES are steamed or stir-fried and are a necessary addition to any meal.

CHICKEN TERIYAKI is our #1 seller...a favorite among our consumers! Spicy chicken is the favorite among our repeat customers. It's maddeningly delicious!!

APPETIZERS are a great (and delicious!) up-sell opportunity; potstickers, edamame, crab rangoon's and eggrolls!

WHY FAST CASUAL?

FAST CASUAL: A GROWING INDUSTRY

8

The term fast casual describes a restaurant between a quick serve and casual dining experience. It is one of the fastest growing sectors in the restaurant industry.

The segment is rapidly growing because consumers love the concept. It fits the need to eat on the run while offering healthy options. The food is fresher, higher quality and more customizable than fast food. Consumers are saying bye bye to boil-in-the-bag and hello to made to order and are fine paying extra for higher quality, fresher food.

THE PROOF

The fast casual sector in the restaurant industry shows amazing numbers in the past few years, plus it is expected to continue to perform above average!

Check out the stats on the fast casual restaurant segment:

- Increasing 550% since 1999, ten times the growth in the fast food industry.
- Six year compound annual growth rate of 10.6% (2021-2027).
- Global Fast Casual restaurant market is expected to climb 66.5% from 2019 to 2027.

WHY ASIAN FOOD?

ASIAN & HEALTHY FOOD TRENDS

Asian food has been named the fastest growing food market in the world, growing nearly 500 percent since 1999. This impressive growth can be accredited to the fact that people are now more inclined to try ethnic food due to its bolder flavor, healthy ingredients, and overall nutritional value. By using this new consumer trend to stand out amongst other fast casual restaurants, it has allowed for Asian-inspired food concepts to compete for customer's loyalty.

Within recent years, consumers are now looking towards a healthier diet and active lifestyle. Due to this change, the fast food industry is taking a hit because they aren't providing these healthy options. Fast casual restaurants, however, are not only providing more fresh options than a quick service restaurant (QSR) but they are also satisfying the need for convenience. This is why Teriyaki Madness has proven to be a welcomed concept in a market that is over-saturated with unhealthy options that no longer appeal to the consumer's needs.

Because our food is fresh and made to order, the consumer can not only fulfill their need for a healthier option but they can completely customize it. If the customer wants, they can skip the carbs and go for veggies!

They can also easily alter the items on our menu to appeal to diet-restriction needs. Most items on our menu can be made gluten free upon request and by providing a customizable menu that is made to order, no consumer will leave without a healthy option that is hot and ready to go.

Convenience is everything in this day in age and Teriyaki Madness is rising to the top by providing exceptional service molded around the rising trend of the new health conscious generation.

OUR CUSTOMERS

WHO ARE THEY?

10

Asian food is fresh and flavorful. Customers are getting tired of the same old American staples of burgers, pizza, and subs. Though Asian food is not new by any means, the Asian food restaurant category is the first choice in the U.S.! Most people who try our food, fall in love with it.

5 stars, what a great random find in Lakeland! Located in a nice little downtown area, this place has a bunch of great picks for a lunch or dinner. They have multiple make your own bowl options, with something for everyone. One unique thing you can make anything yakisoba style, which is with noodles, veggies and choice of protein. I ordered a regular size of the spicy tofu (yakisoba style of course) and it was fully of flavor, and super fresh-- literally straight out of the wok. The tofu has a nice crisp on the outside while very warm inside, and it even came with a side of sauces. Service is great and staff is kind. They do have outdoor seating (with umbrella covers), for anyone who wants to avoid a crowd. I would highly recommended this restaurant!

This review is for the catering for Teryaki Madness. I needed 23 separate meals, no buffet because of Covid19 restrictions in my offices right now. Teryaki Madness was up to the task. My catering manager was Chiang, and she could not have been more helpful! We looked at all the dietary restrictions, 9 vegetarians, 2 gluten free, and the rest could be chicken. We alternated the chicken with either noodles or rice plus veggies. The tofu, we did 2 kinds, spicy and regular; then put those with rice or noodles and vegetables. Everyone was happy and was able to get something they liked!

The meals came with extra sauces, and arrived on time. I will use this caterer again. Fresh, healthy and delicious!

Q: WHAT MAKES TMAD SPECIAL?

Teriyaki Madness is a fast casual restaurant concept serving up quality, fresh, healthy and flavorful Asian food in a high-vibe atmosphere. Through years of mastering marinating, grilling, and wok-ing, we were able to make bowls that are as hearty and delicious as they are healthy.

Our food is made when you order. Always fresh, never frozen marinated and grilled meats and customizable bowls meant for delicious and healthier eating.

Q: INVESTMENT RANGES FROM \$327,200 – \$678,260*. WHY?

The spread is mainly based on the square footage of the location and the costs associated with the build-out, equipment, materials, general contractors, etc. Again, why we strive for retrofits. You can also see a detailed breakdown of the initial investment cost in Item 7 of the Franchise Disclosure Document (FDD) which is available after completion of the Confidential Questionnaire.
